

INGENICO iWL Series Portable Terminal With Integrated Contactless

INTRODUCTION

Our portable terminals give your staff the freedom to work all around your premises, taking the payment point to your customer.

These terminals are often used in restaurants and bars, but these compact, convenient devices are appearing more and more among fashion and high-tech retailers because of their mobility. Their smart design includes integrated Contactless processing for ultra-fast processing of lower value payments*. These terminals are available with a white lit or colour screen.

KEY BENEFITS

- Easy to use with a full set up guide
- Quick payments as terminals allow transactions to be paid directly into your bank account within three working days
- Flexibility to choose your own end-of-day report time to suit your business needs i.e. after midnight for restaurants
- Audit capabilities with end-of-shift and end-of-day reporting for management review
- Personalised messages can be printed on receipts to use for advertising and promotions
- Brand promotion opportunities on the iWL250 colour screen

KEY FEATURES

- Fully compliant with Payment Card Industry PIN Transaction Security (PCI PTS)
- IP enabled for fast transactions [4x faster than dial-up/Public Switched Telephone Network (PSTN)]¹
- Transactions are stored and processed securely end-to-end
- Gratuities available as either a fixed amount, or percentage of the bill and on screen or paper
- Supervisor password (not card)
- Up to 3 terminals are able to wirelessly connect to 1 base unit
- Allows acceptance of the widest possible range of Chip and PIN cards, ensuring your business is compliant with all Card Scheme requirements

- Backlit keyboard has large keys for easy use
- The terminals have a 100 metre range from the base unit, so can be taken to the customer

DEVICE SPECIFICATIONS

Size: 168mm (L) x 83mm (W) x 40mm (H)

Weight: 267g

The PIN-Pad comes with a 2 metre connector cable.
