

## Maytag PR & PRPD

### Increase laundry room sale and convenience by eliminating coins

Heartland's SLIM PR Laundry Controller can increase your laundry sales while adding convenience and security to your laundry rooms by eliminating coins. SLIM PR Laundry Controllers are designed to fit all Maytag "card ready" PR commercial washers and dryers and are backed by Heartland's superior technology and expertise in unattended, cashless facilities. SLIM PR Laundry Controllers enable cardholders to purchase laundry services with their Heartland Smart Card, therefore eliminating coin collection.

Heartland's proven laundry systems provide an end-to-end solution for a cashless laundry room. With simple to install units in the laundry machines, and easy to use stations for revaluing and dispensing cards, Heartland provides a full laundry service solution

Added advantages include: reduced maintenance, eliminating coin jams, improved customer loyalty, pricing flexibility and accurate audit trail reporting.

PR - Console Mount

PR/PD Meter Case

## Benefits and Advantages

- ✓ Plug & Play installation in all Maytag PR and PR-PD machines
- ✓ Card-based programming and pricing
- ✓ Field programmable memory makes firmware upgrades easy and economical
- ✓ Compatible with all Heartland smart card systems

## Unsurpassed Reliability

- ✓ Heartland's proven technology is built into each PR/PRPD unit
- ✓ Non-volatile Flash memory eliminates the data loss problems associated with battery-backed RAM
- ✓ Extensive electrical noise suppression built-in

## More Revenue & Promotion Flexibility

Heartland's proven laundry systems provide an end-to-end solution for a cashless laundry room. With simple to install SLIM-PR units in the laundry machines, easy to use revalue stations for revaluing and dispensing cards, and Windows-based software systems, Heartland provides a full laundry service solution.

Heartland's Prime Solutions Software modules are designed to accurately and securely manage any size laundry system. In addition to extensive auditing and settlement functions, the program modules support the laundry services provider with everything from the ability to create and manage system keys (***an added layer of security provided only by Heartland***), to the creation of programming cards, data collection cards, maintenance cards, and user cards.
